**Subject:** Due Mon. 8 May - Revised Privacy/Proxy LEA Disclosure Framework

Dear PSWG Members,

Following the call held earlier today (recording accessible here: <https://participate.icann.org/p1k08huef9r/>), two revisions were made to the Draft Privacy/Proxy LEA Disclosure Framework (see attached clean and revised versions):

- **Section 4.2.3** now includes a requirement for PP providers, when refusing disclosure, to complete notification of requestor LEA prior to any customer notification (if applicable under applicable laws) so that LEA are made aware.
- **Section 6.1** now clarifies that procedures defined in the disclosure framework may also apply in cases where PP providers chooses to cooperate voluntarily with requestor in cross-jurisdiction inquiries.

**Please review and comment** as soon as possible, **at the latest by next Monday 8 May COB**. In the absence of objection by this date, this revised draft will be submitted to the GAC for endorsement, for subsequent discussion with the PPSAI IRT.

Thank you for attention.

Best Regards

**Subject:** Discussion on Privacy/Proxy LEA Disclosure Framework - Poll Due Thu. 27 April 1400 UTC

Dear PSWG Members,

Following your review of the proposed Draft Privacy/Proxy LEA Disclosure Framework (attached), Cathrin Bauer-Bulst (PSWG co-chair) and Nick Shorey (PPSAI Topic Lead) would like to invite contributors and interested PSWG members for a follow-up discussion, in fairly short order.

If you are interested, **please let us know your availability** in this doodle poll, ideally **before tomorrow Thursday 27 April 14:00 UTC**: <http://doodle.com/poll/dun33e2xi6pxpb2g>

The discussion would aim to exchange views and seek to determine whether the current proposal:

- provides benefits beyond what your respective national legal frameworks require currently in the area of disclosure from PP providers

- is consistent with relevant GAC Advice in the area of cross-jurisdiction requests (see [Marrakech](#) and [Helsinki](#) Advice)
- is ready for engagement with the PP Implementation Review Team from both a strategic and tactical perspective

A short issue paper will be circulated ahead of this discussion to assist in members' preparation.

Thank you for your attention

**Subject:** [Ext] FOR COMMENT: Privacy Proxy Disclosure Framework - deadline 21st April 2017

Hi everyone,

Hope all is well. Please see below.

**ISSUE:**

Please find attached the draft disclosure framework for privacy and proxy services.

We're working to quite a tight deadline to keep track with the progress of the Implementation review team (IRT), so I welcome your timely response. Following your feedback, I will review and submit to the GAC for endorsement, before transmission to the IRT.

With big thanks to Ashley, Chris, Fabien, Gilad, Gregory, Kerry-Ann, Lili & Roeland for their tremendous help in developing it through to this point.

*Please note: This is not final policy, but will be used to guide the work of the IRT.*

**ACTION:**

**Please review and provide comments to Nick and Fabien by close on 21st April 2017.**

I look forward to receiving your comments. In particular, I would welcome feedback on:

- Whether we should include a rationale against the guidance recommendations?
- Must a request reference applicable law as a minimum standard for acceptance?
- Can we have trusted requestors? What streamlined process are we seeking, and what does a streamlined process mean in practice?
- Should action of 'High Priority' requests be within 24hrs of the request being 'submitted' or 'received'?
